# LIFETIME ACRYLIC

**BETTER | STRONGER | CLEARER | UNIQUE**

# FRANKLY BETTER THAN GLASS

## NON-REFLECTIVE SO CLEAR, IT'S INVISIBLE

Our non-reflective coatings reduce reflections to the strict minimum, overperforming similar products on the market.

## SCRATCH RESISTANT

Lifetime acrylic can withstand up to 5-10 times more scratches before it is critically damaged.

## ANTI-STATIC PROTECTION

This coating combines the best benefits of glass and acrylic and provides an easy maintenance and cleaning.

Lifetime Acrylic addresses the main limitations of plastic glazing. With its unique properties, this new material surpasses all museum standards for display cases -even the classic laminated glass solutions- to the satisfaction of all museum professionals.

Lightweight  
and durable

Less than  
1% reflection

FRANK cases  
with 6 mm panels

Higher  
shatter-resistance

Easy to clean -  
Easy to handle

Picture Framing  
in 3 & 4.5 mm

The hard coating of the acrylic substrate protects the glazing against scratches and ensures exceptional durability.

# UNIQUE & AFFORDABLE SOLUTION

## EXTREME LIGHT TRANSMISSION

98% clarity guarantees the ultimate light transmission and color neutrality, making this unique acrylic the most transparent material in the world.

## MAXIMUM UV PROTECTION

The shatter-resistant and lightweight acrylic blocks 99% of all UV light and provides the perfect physical protection!

## ABSOLUTE MINIMUM DISCOLORATION

Color precision is always highly required to show artefacts in the best way possible. Lifetime Acrylic answers this request perfectly.

FRANK Showcase Systems has always been a pioneer in providing high-quality museum display cases in acrylic and glass. No other showcase manufacturer can provide this unique style with flush finish sliding profiles to obtain a patented, minimalistic and secure display case that is also sustainable, emission-free while still meeting the highest museum standards.

With this in mind, FRANK has worked tirelessly over the past decade to find an unmatched product which can change the landscape of display cases. We are proud to introduce you to "Lifetime Acrylic" which has the ultimate characteristics that even the best glass or similar products cannot provide.

This new European product has been extensively tested to ensure its quality. This non-reflective product boasts higher levels of quality, transparency, static and scratch resistance even in a thickness of 6mm without any discoloration. The thicker 8mm version is currently in development to allow for larger and stronger showcases. Above all, this exclusive product remains an affordable solution at a price point well below the competition. Due to increased demand FRANK will now offer picture framing options in thicknesses of 3 and 4.5 mm.

This transformative product is now available to FRANK customers around the world. Request a sample today for a once in a "Lifetime" experience.
